

MASSEYHACKS IX

SUPERVISOR INFO

WHAT IS MASSEYHACKS?

MasseyHacks is a high school hackathon - an event spanning over 24 hours to give students grades 7-12 an opportunity to explore the realm of computer science and bring their creative ideas to life. They'll get to participate in workshops, engage in countless activities, and meet other like-minded students! Our goal is to create memories and guide students through the world of STEM. To learn more, visit our [website](#).

SUPERVISOR ROLE

Supervisors play a crucial role in the success of MasseyHacks. They'll work to ensure the safety of participants throughout the event by supervising areas of the school.

PERKS

Joining as a supervisor comes with as many perks as it does responsibilities. Swag will be up for grabs, and meals and snacks will be provided. Of course, supervisors will also get a chance to engage with hackers and sponsors.

EVENT INFORMATION

MasseyHacks IX will take place on May 6th from 9:00 am - 10:30 pm and May 7th from 8:00 am - 5:30 pm at Vincent Massey Secondary School. Supervisors are not required to be present for the entirety of the event. Let us know when you are available, and we'll accommodate shifts accordingly.

This event wouldn't be possible without the generous help and dedication of our supervisors. Thank you for your support!
